

Jeffrey Supple, DMD

Dr. Bill Wolfe Welcomes Dr. Jeffrey J. Supple

By Bill Wolfe DDS

Bill Wolfe DDS

For 48 years I have been a practicing dentist, 40 of those years practicing mercury-free dentistry in Albuquerque and Santa Fe. During this time, I have worked with some outstanding staff members. Together, we have treated thousands of patients, and I am very thankful.

As of December 1st, 2018, Dr. Supple joined my practice and a transition is in motion for his assumption of the practice.. I will be retiring from my practice as of January 31st and spending time playing "mad scientist", developing new products (www.goodenergyproducts.com). All of my current staff will continue in their present positions, so the great people my patients have come to know will still be here.

During the month of January, I will be working with Dr. Supple; introducing him to as many of my patients as possible.. (See 50% discount offer in ad below!). Not only will Dr. Supple practice mercury-free general dentistry, he is very accomplished with cosmetic veneers, implants, partial dentures, metal-free crowns and bridges; and in addition, he has a special interest in TMJ therapy. He is passionate about dentistry and making a positive change in the lives of others. I am confident you will enjoy working with him.

Dr. Supple is a native Albuquerquean and graduated from the prestigious Tufts University School of Dental Medicine in Boston. He has been practicing mercury-free dentistry in Santa Fe and Albuquerque for the past 27 years. Dr. Supple is excited about working with my patients and is looking forward to this new adventure. He is committed to providing the best quality care for all patients, whatever service they elect.

As excited as I am to be spending more time developing new products, I must confess that I feel some sadness as I move into retirement. I have treated many of my patients as they grew into adults and then treated your children and even grandchildren. These past years in Albuquerque and Santa Fe have not just been about dentistry, but also about building personal relationships. I consider many of you my friends.

I feel very certain that Dr. Supple will continue the traditions of this office, while offering his own services and special treatments, with the best treatment for all concerned in mind.

Call our office to schedule your appointment in January and receive the 50% off your exam, xrays and cleaning! 505-299-6950, www.drwolfe.com
